

# HPE Networking Instant On Switches

Simple, powerful, secure

## Easy switch management

Deploy HPE Networking Instant On Switches with management that fits your business best — Instant On cloud management or the local web GUI — all at no extra cost. Unmanaged switches are configuration-free with no management needed.

## Fast, reliable, and secure network connections play a critical role in helping small businesses maintain a competitive advantage in an increasingly virtual world.

From retail stores, to cafés, to professional offices, small businesses need a strong network to provide amazing online experiences while keeping employees productive. And with constrained resources and a growing number of interconnected devices, getting the most valuable networking solution for the money has become a basic need for budget-strapped small businesses.

### All the features you need to accelerate and expand your network

Easy to set up and manage, HPE Networking Instant On Switches are perfect for work-from-home and for small and growing

businesses. Providing a foundation for reliable connectivity, switches maximize both performance and peace of mind across your network and devices.

Instant On offers a comprehensive portfolio of smart-managed and unmanaged switches ideal for small businesses. With models ranging from 5- to 48-Gigabit Ethernet ports, optional high speed 10-Gigabit connectivity, Power-over-Ethernet (PoE) models, and flexible management choices including a cloud-based mobile app, Instant On offers everything you need for a simple, reliable wired network.

## Benefits

- **Simplicity at its best**

Plug-and-play switches that work together with Instant On APs right out of the box

- **Flexible management modes**

Instant On cloud-based management (via mobile app and web portal), local web GUI, or zero configuration needed with unmanaged models

- **Connect more IoT devices**

Class 4 and Class 6 PoE support to power more devices

- **Peace of mind**

Built-in security features for a worry-free networking experience

- **Scales with your business**

Grow quickly and simply with stacking and high-speed uplinks

- **We've got you covered**

Support in all the right places: Limited Lifetime Warranty, phone and chat support, and an active online community
